animal program add-ons

turtle ambassador
Our educators will give a short introduction to one of our turtle ambassadors. After, participants will be able to see the turtle up close and interact with turtle biofacts like shells, skulls, and even eggs! **Please note there is no tactile interaction (touching) with the turtle.** This event takes place in the Event Room. (15 minute session)

pinniped enrichment session
Participants will have the opportunity to interact with one of our marine mammal trainers and assist in the creation of an enrichment item for our animals. After the toy is created, the birthday child helps to feed the sea lions by dropping it into the main pool. This event takes place at the main pool viewing area on the 2nd floor. (15-20 minute session)

touch tank encounter
Touch tank animals include whelks (sea snails), hermit crabs, and 2 species of sea stars. One of our educators will give a brief introduction before the party guests get to touch and interact with the animals! The program takes place inside the Event Room. (15 minute session)
